

FRENCH PORTS ARE TIED UP

By Employers' Lockout Following Demands by the Workers

BREST AND HAVRE WORK HAS ALL CEASED

At Latter Port 3,500 Men Were Locked Out To-day

Brest, July 31 (By the Associated Press).—All work in the port has ceased, the employers having declared a lockout because of the demands of the dockers' union.

Havre, July 31.—The lockout on the docks of Havre has become effective, 3,500 men being out. The union of employers has hired 300 day laborers to work for the French quartermaster's department.

Albert Claveille, minister of public works, has called a meeting of the employers and representatives of the men to be held at the ministry of public works in Paris to-day.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft curves of a well developed body, there are evidently thousands of men and women who feel that they are thin.

Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by E. A. Brown & Co. in Barre and most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate should produce a welcome transformation in the appearance; the increase in weight frequently being astonishing.

Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should soon disappear, dull eyes ought to brighten, and pale cheeks glow with the bloom of perfect health. Miss Georgia Hamilton, who was once thin and frail, repeating her own experience, writes: "Bitro-Phosphate has brought about a magic transformation with me. I gained 16 pounds and never before felt so well."

CAUTION:—Although bitro-phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, it should not be used by anyone who does not desire to put on flesh.—Adv.

FRUIT TREATMENT THAT GAVE RELIEF

Suffered Three Years Before Finding "Fruit-a-tives"

CENTRAL WARE, BOSTON, MASS.
"For three years, I was troubled with Constipation, accompanied by Dizziness and Violent Headaches. I took medicines and laxatives, but without permanent relief."

Last October, I heard of "Fruit-a-tives" or Fruit Liver Tablets. I used one box and the results were so pronounced that I bought two dozen boxes.

I continued using "Fruit-a-tives" until the twenty four boxes were finished, when my physical condition was perfect". JAS. J. ROYALL.

STONE-THROWING CHARGE UNVERIFIED

French Court-Martial Makes Report on Alleged Indignities to Germans

Paris, July 31.—The judge advocate attached to the second permanent court-martial, who investigated the incident connected with the departure of the Germans from Versailles, finds that there is no case.

It has been established that the Germans aroused the protest of the crowd by sticking out their tongues at the spectators, and shouting "Hoch" and the charges that stones were thrown rest upon the unsupported testimony of Dr. Theodore Melchior, one of the German financial delegates to the peace conference, and Frau Greta Doribush, one of the secretaries to the delegation.

GIVEN FAREWELL AT FAIRFIELD.
Rev. N. J. Lachance Honored on Departure for Granvilleville Church.

Fairfield, July 31.—One of the largest social events in the history of Fairfield took place Sunday evening when over 350 people gathered at St. Patrick's church to bid a formal farewell to Rev. N. J. Lachance, who has been called to serve as the new pastor at Granvilleville. Although pleased that this recognition of success was shown him in this appointment to the parish at Granvilleville, yet it was with deep regret and heartfelt sorrow that his parishioners and friends, coming many miles from the neighboring towns of Bakersfield, Fitch and Fairfield, gathered to bid him farewell.

Twenty-four years of faithful service had made his impression and endeared him to the hearts of all, both parishioners and fellow citizens.

The reception came as a complete surprise. Nothing unusual had occurred to indicate an eventful evening. It was during benediction that musicians worked, and the basement of the church was made cheerful and bright with the soft light of numerous Japanese lanterns, under which many small tables were set, laden with cakes and ice cream. Never before had there been such a gathering; there was hardly a family in the entire township which was not represented. Eagerly, yet sorrowfully, they had left their homes to show their heartfelt appreciation and regard for the good man who was to leave their midst.

At the close of the evening the people gathered in a semi-circle before the church, while Thomas Ryan spoke very ably in behalf of the parishioners, expressing in his well-chosen words the sorrow that all felt in their great loss of a priest and friend who meant so much to them.

He then introduced H. W. Fairchild, who spoke for the townspeople. Mr. Fairchild emphasized the fact that not only was the loss of Father Lachance a great sorrow for his church but also to his town, for even as he had been a well loved priest, so had he been a highly esteemed citizen.

The enthusiastic generosity of all the parishioners and many of the townspeople made it possible to present Rev. Lachance a purse of \$500. The money was the result of only a few hours' work and shows conclusively how much Father Lachance means to his people.

As he stood there on the steps of the church he had watched built brick by brick and looked into the faces of his parishioners and townspeople, many of whom he had known first as little children, words seemed to fail him. Then, with characteristic aptness, he forgot the need of mere words and spoke straight from his heart, combining in a few sentences all the wit, pathos and beautiful understanding of his own personality.

Again he reached out and touched the hearts of his people and they can only wish him all joy and Godspeed in his new life with his parish at Granvilleville and ask that, as he himself so aptly expressed it, he will always be able to say in regard to Fairfield, "I remember."

That Film on Teeth

Destroys Them. Watch It Disappear

All Statements Approved by High Dental Authorities

Science Saves Teeth In a New Way Now

Dental science has found that an important cause of tooth troubles lies in a slimy film. You can feel it with your tongue.

It has also found that old methods of teeth cleaning do not end this film. That is why well-brushed teeth still discolor and decay—why tartar forms and pyorrhea starts. Statistics show that, despite the tooth brush, these troubles have constantly increased.

And now dental science has found a way to combat that film. That fact has been proved by many clinical tests. And this offer is made of a 10-day tube to urge everyone to prove it.

That film is what discolors, not your teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. In fact, dentists call this film "bacterial plaque." Those germs, with tartar, are the chief cause of pyorrhea. Thus nearly all tooth troubles are now traced to the film.

The film is a clinging substance. It gets into crevices, hardens and stays. The ordinary dentifrice cannot dissolve it. A soapy tooth paste even helps it to become more resistant to the brush.

So the tooth brush has proved disappointing. It removed food debris, but it failed to end film. And that film is the teeth's chief enemy.

Now that film can be efficiently combated. The method is embodied in a dentifrice called Pepsodent. Its results are quick and convincing. A 10-day test will prove a revelation to you. We ask you to make it at our cost, then judge for yourself what Pepsodent means to your teeth.

He Quit Tobacco

This veteran, S. B. Lamphere, was addicted to the excessive use of tobacco for many years. He wanted to quit but needed something to help him.

He learned of a free book that tells about tobacco habit and how to conquer it. He wrote: "I have no desire for tobacco any more. I feel like a new man." Lessons of others report similarly. Wonderful for cigarette and pipe habit, and chewing.

Anyone desiring a copy of this inspiring book can get it free, postpaid, by writing to Edward J. Woods, 713-31, Station F, New York City. You will be surprised and pleased. Look for quieter nerves, stronger heart, better digestion, improved eyesight, increased vigor, longer life and other advantages if you quit poisoning yourself with nicotine. In three days you can be rid of the addiction—then become robust, acquire healthy flesh, add years to your life. Show others "his adv."

WOMAN SEVERELY INJURED

Thrown Through Windshield of Automobile When Machine Struck Sand.

White River Junction, July 31.—Mr. and Mrs. Wright of Bellows Falls met with a serious accident Tuesday evening, July 29, while they were driving in their limousine from Lebanon to White River Junction, when their car struck some loose sand with which the road was being repaired. The sand caused the car to swerve so that it struck a telephone pole at the side of the road.

Mrs. Wright was thrown through the windshield and injured badly by the broken glass. One wrist was severely severed, her face was badly cut, and her breast was lacerated.

C. Colodny of the Surprise store, White River Junction, who was passing in his car at the time of the accident, together with Mr. Wright, lifted Mrs. Wright into his car and rushed her to a physician in Lebanon, where her wounds were dressed. Mr. Wright was only slightly cut. The car was so badly damaged that it had to be towed to a garage.

This Pretty Girl Who Defies Age
Uses Howard's Cuttermilk Cream
to Beautify Her Complexion

Tells all good drug and department stores not to take anyone's money unless this delightful new vanishing cream quickly shows a decided improvement. Try it today at our expense.

The first application of Howard's Cuttermilk Cream will astonish you. It creates beauty almost like magic. The most wonderful thing about it is the fact that whilst it turns the driest, most lifeless complexion to radiant beauty and makes red or rough hands or arms snowy white, yet there is not the slightest sign of its use after application. It actually vanishes from sight and the most heated atmosphere will not produce the least shininess or greasiness of the skin.

No matter whether you are troubled with a poor complexion, wrinkles, puffiness around the eyes, freckles, crows feet or lines around the mouth, ugly finger nails or just a simple roughness of the face, hands or arms caused by wind or sun, you will find that any or all of these troubles will quickly disappear with the use of Howard's Cuttermilk Cream.

To prove this to your complete satisfaction, get a small quantity to-day from your druggist or any toilet goods counter, with the understanding that they will freely return the purchase money to any dissatisfied user.
